BOND MARKET

New York, June 16.—In the face of further reactionary tendencies in the stock list, today's bond market more than held its ground, although some of the underlying rails were under pressure at extreme lesses of one to four points. Libertles were the stabilizing feature, the first 4 1-4's scoring a new top at 190.40, while several other of that series duplicated recent maximums. Altogether,

less of the break in sterling and Mexicans railled briskly from their early heaviness, the 4's gaining 3 points, the 5's 3 1-2 points and the "large" 5's one and one

points and the 'large' o's one and on-half points.

Profit-taking probably conduced to the reversal in Peorla and Eastern incomes and St. Paul convertibles, New Hayen 6's, Scaboard adjustments, Mercantile 6's, Consolidated Gas 7's and Brooklyn Rapid Transit were substantially lower. Total sales, (par value) aggregated \$15.437,000. Treasurey officials at Washington re-

sales (par value) aggregated \$15.437,000.

Treasury officials at Washington reported a large over-subscription to the latest offering of certificates, amounting to \$250,000,000. Among the other underwritings which found a ready market were the \$2,500,000 five per cent. municipal improvement and \$550,000 five per cent. school bonds issued by the public service commission of San Juan, Porto Rico.
